

Aleksandr Kukhar

DEVOPS ENGINEER
SIMFEROPOL

To seek a challenging position in a professional organization which will help me enrich technical skills and take up greater responsibilities. That will enable me to use my skills and abilities to make contribution to the company as well as to collaborate with teammates for achieving our common goals.

Work

Fasten, Inc.

2016-01-01 - 2019-05-01

LEAD DEVOPS ENGINEER

Fasten is one of largest taxi services on the planet, most known for brands "RuTaxi", "Везёт", "Сатурн", "RedTaxi" and "Лидер". As being employed as an Lead DevOps engineer, the most of work was done in standartization of all the project parts to make test environments relevant to business workflow. Within my leadership following DevOps domain activities were applied:

- Composed CI/CD pipelines for more than 80 microservices
- Infrastructure was bound to IaS and was made immutable
- Built traceable environments with reporting system
- Knowledge sharing between developers team
- Implemented code review practices and automated code quality analysis
- Moreover, I was managed to assist of architecting ride-sharing platform, designated to replace actually used one.

Skills

DevOps Patterns

Master

- Immutable Infrastructure
- Infrastructure as a Code
- Infrastructure as a Service
- Continuous Integration
- Continuous Deployment
- Continuous Delivery

Operating Systems

Master

- Linux RHEL/CentOS
- Linux Debian/Ubuntu
- Linux Gentoo
- FreeBSD
- Solaris

Continuous Integration

Master

- drone
- jenkins
- bitbucket pipelines
- semaphoreci
- gitlab

Load Balancers

Master

- nginx
- haproxy
- fabio

Containers

Master

- docker
- lxc
- openvz
- jail
- docker
- kubernetes

Infrastructure Automation

Master

Web Servers

Master

- ansible
- terraform
- consul
- vault
- packer
- helm

Scripting

Master

- sh
- bash

Java

Master

- j2ee
- maven
- wildfly
- kafka
- nexus
- jackrabbit

Virtualization

Master

- xen
- kvm
- libvirt

Software Development

Master

- nginx
- apache

Programming Languages

Master

- perl
